EDUCATION

- **Indian Institute of Information Technology, Allahabad** CGPA: **7.75**
Information Technology with specialization in Business Informatics 2023-2027
- **V.M Inter College, Gopalganj, Bihar** Percentage: **80.6**
Bihar School Examination Board 2021-2023
- **Kendriya Vidyalaya, Gopalganj Bihar** Percentage: **94.8**
Central Board of Secondary Education

SKILLS SUMMARY

- **Languages:** C++, Java, JavaScript, Python, C, SQL
- **Frameworks:** HTML, CSS, ReactJS, NodeJS, Express.js, MongoDB
- **Tools:** Git, GitHub, MongoDB, Figma/Canva
- **Platforms:** Linux, Windows
- **Courses:** AI/ML, Cyber Security, Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management Systems, Software Engineering, Operation Research

PROJECTS

- **HackathonManagerApp | Full-Stack Project(Repo)** July 2024 – Dec 2024
Group Project
 - Developed a full-stack hackathon management platform which aggregates and provides real-time information about ongoing hackathons across the country.
 - Contributed to backend and frontend development. Additionally i created UML diagrams and prepare the SRS documents.
 - Designed and developed a responsive frontend with HTML, CSS, and JavaScript, integrating React components for an interactive user experience.
 - **Tech Stack:** HTML, CSS, JavaScript, Node.js, React, Node.js, Bootstrap, MongoDB, JWT
- **MediScan | AI-Based Prescription Analysis System (Repo)** July 2024 – Dec 2024
Google Girl Hackathon Project
 - MediScan is an innovative AI-driven system that utilizes handwriting recognition to extract medicine names from doctors' prescriptions with high accuracy.
 - Built using TensorFlow, Keras, and OpenCV, the system enhances prescription management and ensures error-free medication identification.
 - Developed a web-based interface for uploading prescriptions and retrieving results instantly, improving accessibility for healthcare professionals.
 - **Tech Stack:** TensorFlow, Keras, OpenCV, HTML, CSS, C++, C

ACHIEVEMENTS

- Solved over **450+ DSA** problems on [LeetCode](#) and [GeeksforGeeks](#), strengthening skills in algorithms and data structures while regularly participating in coding contests and hackathons.
- **Semifinalist in Google Girl Hackathon 2025**, demonstrating innovation, technical skills, and effective teamwork in competitive problem-solving.
- Selected among the **Top 50 Female Coders in HackOn with Amazon-Season 5**.
- **SemiFinalist in Flipkart Grid'7.0**.
- Selected as a **Contributor for Girl Summer of Code Extended 2024**, contributing to open-source projects and engaging in collaborative software development.
- **Qualified JEE Mains and Advanced** in 2023, showcasing strong academic skills and a solid foundation in engineering.

RESPONSIBILITIES

- Member -Nirmiti , Arts Society ,IIIT Allahabad.
- Creatives Volunteer- Effervescence Cultural Fest, IIIT Allahabad.
- Volunteer - Aparoksha Technical Fest, IIIT Allahabad.
